Education

Bachelor's degree in Computer Engineering
Dr. D Y Patil Collage of Engineering and Innovation, Talegaon   *April - 2024*
Final SGPA: 7.58/10

Higher Secondary Education
Sou. Tarabai Shankarlal Mutha Kanya Prashala & Junior College, Pune   *February - 2020*
Percentage: 67.77

Secondary School Eduction
The Good Samaritan School,Pune   *March - 2018*
Percentage: 74.00

Projects

Portfolio Website   **February-2022**
- Created a Portfolio Website using Html, CSS & JavaScript Main objective was to build a fully responsive website to replace the use of resume in contrast with the own portfolio website.

PROJECT ON "COSMETIC PRODUCT MANAGEMENT SYSTEM"   **May-2023**
- This project showcases my proficiency **in front-end and back-end web development, database management**, and server configuration.
- In this Project all information of cosmetic product (Name, Price , Availability , Date) is store in Database. (MySQL Database.
- Utilized **MySQL within the XAMPP** environment to create a structured database for storing details of the products, user information, and preferences, ensuring efficient data management.
- Developed a **user registration and login** system **using HTML, CSS and MySQL**, enhancing website **security** and offering a personalized experience for users.

Spam Filtering Techniques Based on Natural Language Processing Framework   **Dec-2023**
- I successfully completed a comprehensive project titled "Spam Filtering Techniques" using **NLP Framework.**
- Identify and Filter Spam: The primary objective is to accurately identify and filter out spam messages from legitimate ones using Natural Language Processing techniques.
- Enhance User Experience: Ensure that users are not inundated with unsolicited or irrelevant content, thereby improving their overall experience in digital communication.
- Protect Against Security Threats: Detect and mitigate security threats, including phishing attacks and malware distribution, which are commonly delivered through spam.
- Preserve Privacy: Safeguard user privacy by preventing invasive and privacy-violating content from reaching the users' inboxes or communication platforms.

Technical skills

Programming Languages	*C, HTML, CSS, jQuery*
Developmental Frameworks	*Bootstrap, ASP.Net*
Database Management Systems	*MySQL*
IDEs / Tools/Server	*Visual Studio, SQL Server management studio, XAMPP Server*

Internship

1) **Web Development & Python Django Framework**   **Jan-2023 to Mar-2023**
   Elite Softwares (Virtual)
2) **Internship in Core Java**   **Nov-2021 to Feb-2021**
   N-Infinity Engineering Academy (Virtual)

Competitions

1) Code-O-Fista (Web development) Competition at DYPCOEI
2) Fortune Fest (UI Designer) Competition at Fortune Cloude

Language proficiencies

Marathi	*Native proficiency*
Hindi	*Conversational proficiency*
English	*Fluent in reading, writing, and speaking*
